Making the first impression the finest one

Aquant Signature embodies the highest level of sophistication, bringing together globally sourced materials and impeccable craftsmanship. Intended for those who expect the exceptional, each piece is rare in character, rich in texture, and enduring in appeal. More than an object of function, it commands the space around it, shaping atmosphere with elegance and authority. Every detail speaks of precision, presence, and a luxury that feels effortless.

AQUANT SIGNATURE

What qualifies as Aquant Signature?

- Limited-edition, artisan-made pieces
- Imported materials with proven provenance
- Distinctive design, authorship and finish
- Project-ready technical packs, durability testing and priority spares & logistics

---

Material Truth

We choose materials for honesty, provenance and sensory depth

Maker Respect

We honour artisanal process and the hands that shape each piece

Project Integrity

We ensure every object is buildable, serviceable and long-lasting

AQUANT® SIGNATURE BRANDS

terzofoco

one by one

Born in Deruta, Terzofoco fuses triple-fired ceramic craft with modern form - each basin is a tactile study in layered glaze and enduring material. The pieces read as sculptural objects: raw, refined and unmistakably handmade.

Yalos murano

Murano’s mouth-blown magic translated into bathroom art — Yalos basins glow with translucent colour, tiny variations and honest handwork. Each piece is a one-off, where light and glass shape mood as much as function.

---

scarabeo

Scarabeo pairs Italian ceramic mastery with contemporary design intelligence - slim-edged profiles and large-format forms made for elegant, usable spaces. Designer-led, technically ready, and quietly bold.

terzofoco

one by one

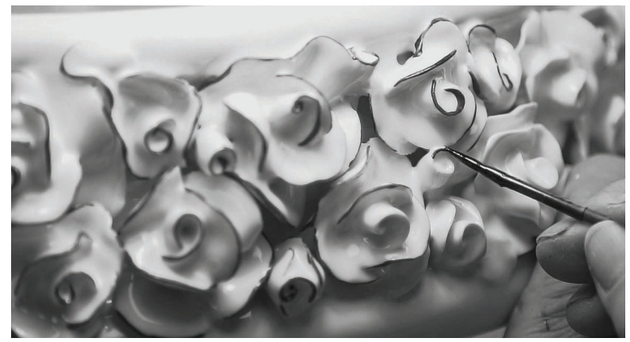

HAND MADE IN ITALY

terzofoco
one by one

DERUTA

From the green heart of Italy

Tucked away in the Umbria region of central Italy, Deruta is synonymous with a distinctive ceramic style known as majolica, celebrating vibrant enamels and intricate decor. Terzofoco embraces the lineage that utilises local clays and time-honoured techniques while pursuing contemporary forms and finishes.

Deruta offers the perfect materials for extraordinary ceramics. At Terzofoco, that terroir meets modern vision: the result is work that is rooted, refined and unmistakably singular.

terzofoco
one by one

Three fires, one masterpiece

Terzofoco's signature is a triple-firing process that transforms clay into enduring art. The first fire shapes form; the second fixes glaze; the third seals and finishes for permanence and depth. A method that's patient, exacting, and ritualistic births pieces that are modern, refined and utterly inimitable.

Whether porcelain, Raku, fire-clay or stoneware, Terzofoco places no limits on material combinations, techniques or finishes. Guided by master ceramists, these pieces transform through fire and hands into their own masterpiece.

1 Clays

The groundwork for sophistication

The first firing celebrates ceramics in all their diversity. Terzofoco selects its clays and bodies for resilience, texture and expression. Three primary materials define the collection:

Raku Clay

Born of the Japanese tradition, Raku is celebrated for its imperfect beauty. The rapid firing and controlled reduction produce Craquelé, subtle smoke marks and one-of-a-kind surfaces.

Fire Clay

Extremely resilient and non-deforming, fire-clay is fired at ~1260°C in a 30-hour cycle. The result is a robust, long-lasting ceramic that performs in demanding installations.

Porcelain

Fired at ~1230°C, porcelain yields a radiant, brilliant white finish. Its fine particle composition and rigorous firing make it ideal for exquisitely refined forms.

2 Glaze

The final touches of finesse

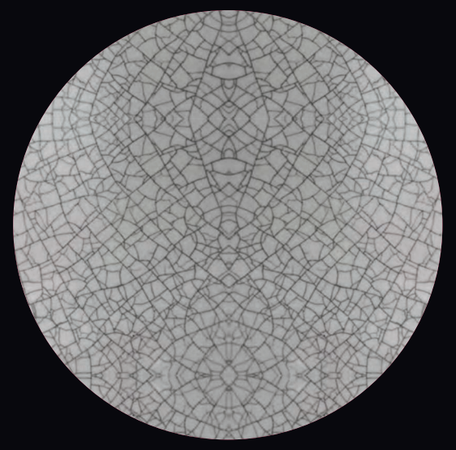

Terzofoco's finishes range from smooth matt and glossy glazes to artisanal Craquelé and metallic lustres. Each finish is selected to amplify material character and project intention. The second firing is used to fix the glaze, which can be smooth or Craquelé.

Perfecting the Glaze

The second firing is dedicated to setting the glaze, which can take on either a Smooth or Craquelé finish. Smooth glazes offer a versatile range of textures, from Matt to glossy, while the Craquelé effect is particularly favored for Raku clay, enhancing its natural, artisanal charm. The type of glaze selected not only defines the aesthetic but also influences the final texture, ensuring each piece is as unique as it is refined.

Smooth

Craquelé

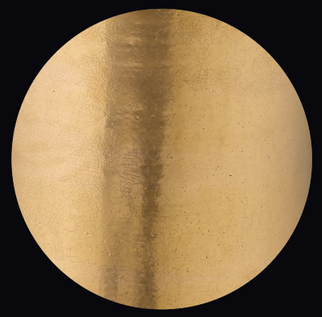

3 Finishes

The Signature of Terzofoco

The third firing is the defining hallmark of Terzofoco, setting our craftsmanship apart. It is during this final stage that our washbasins are transformed into truly unique pieces, as exquisite finishes are meticulously applied. Terzofoco offers a selection of premium finishes.

This final touch elevates each creation, blending artistry with functionality in a way that is unmistakably Terzofoco.

Cleaning & Maintenance

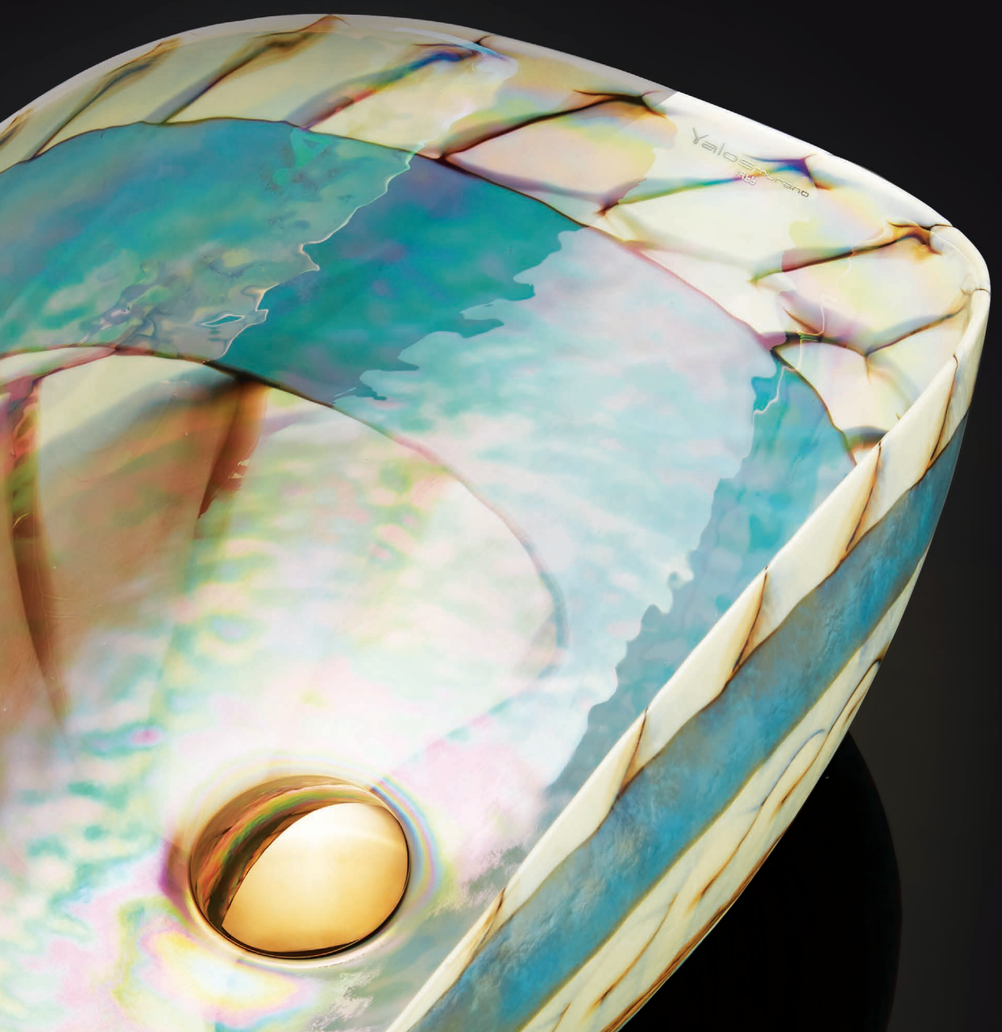

- **Use Gentle Cleaners:** To prevent water spots, clean the basin thoroughly with a soft cloth and warm soapy water. Rinse thoroughly and dry with a clean, soft cloth.
- **Avoid Harsh Chemicals:** Do not use abrasive sponges or cleaners containing hydrochloric acid, acetic acid, ammonia, or metal silicates, as these can damage the finish.
- **Prevent Surface Damage:** Avoid leaving substances like toothpaste, nail polish remover, caustic drain cleaners, alcohol, or bleach on the surface, as they may harm the glaze.

Additional Tips

- **Regular Maintenance:** Routine cleaning helps preserve the basin's appearance and prevents buildup of residue.
- **Handle with Care:** Given their handcrafted nature, slight variations in color and texture are normal and add to the basin's unique character.
- **Installation Advice:** Terzofoco basins are designed for seemless installation and they pair well with wall-mounted or tower tapware to highlight their design.

Yalos murano

1966

The Essence of Italian Murano Glass

Yalos is synonymous with the millenary tradition of Italian Murano glass, a heritage steeped in knowledge, craftsmanship, and secrets passed down through centuries. Founded by the visionary leadership of Guido and Diego Ferro, the company has mastered the art of creating extraordinary pieces that blend the sophisticated techniques of master glassmakers with the innovative styles of renowned Italian and international designers.

Today, Yalos stands as an exclusive brand, offering elegant and unique creations that redefine contemporary living. From furniture to design objects, each piece celebrates glass as the undisputed protagonist, transforming spaces into showcases of timeless artistry and modern sophistication. With Yalos, tradition meets innovation, and every creation tells a story of unparalleled excellence.

Tradition Sparked by Innovation

The Ferro family—Guido, Diego, and Omar—stands at the helm of a legacy steeped in the illustrious tradition of Murano glassmaking. Having forged prestigious partnerships with preeminent Italian and international interior decoration firms, these master artisans have revered the secrets and techniques passed down through generations. The combination of tradition and collaboration has yielded a series of stunning collections, each more successful than the last. Guided by their creative vision, the Ferro trio brilliantly perpetuates an enduring craft—a radiant testament to their unwavering commitment to excellence and innovation within the art of glassmaking.

The Ferro Family, Glassworks by Tradition

The Ferro family's journey is inseparable from the story of Murano glass itself — a tale shaped by resilience, artistry, and reinvention. After the devastating plague of 1630, the family relocated to Murano, where they rose to prominence, serving on the Council of the Venetian Republic and leading the elite School of San Nicolòs. Their lineage, from Leonardo Ferro to the visionary Guido and Diego Ferro, has birthed generations of glassmakers whose work spans centuries and continents. In 1966, the family founded Effetre, a glassmaking house known for innovation — from chandelier components to avant-garde architectural panels. Today, Yalos Murano continues this legacy, fusing tradition with research and technology to craft luminous, expressive design objects. Bearing the prestigious Artistic Glass Murano® seal, their creations embody authenticity, elegance, and the soul of an ancient craft — passed down, perfected, and forever burning bright.

What makes Murano Glass stand out?

Murano glass is globally admired for its timeless design, expert craftsmanship, and rich tradition rooted in the Venetian island of Murano. Each piece is handmade by skilled artisans using centuries-old techniques, known for their vibrant colours and intricate detailing.

Due to the fact that each item is handmade, slight variations in colour, weight, or finish are normal, and a testament to the item's authenticity. It is possible for temperature changes to create small features such as pinholes or micro-cracks during production, but they do not affect the product's durability or performance.

Please note that images shown in our catalogue or website are for reference. Your item will be one-of-a-kind, handcrafted with care to meet the highest standards of quality.

Care & Maintenance

- **Use Gentle Cleaners:** Clean with light detergent or any special glass-cleaning liquid/spray.
- **Avoid Strong Cleaners:** Do not use strong detergents or abrasives as they can damage the surface.
- **Water Softener Recommended:** Ensure faucet water is not hard; using a water-softener is highly recommended.
- **Calcium Deposit Removal:** If interiors become cloudy due to calcium, pour white vinegar and let it sit overnight. Wash it using soap and water the next morning.
- **Dry Gently:** After washing, dry the basin with a dry microfiber or lint-free cloth.

scarabeo

The Story Of Scarabeo Ceramiche

Founded in 1974, Scarabeo Ceramiche carries forward Italy's deep-rooted ceramic heritage, transforming it into contemporary design for the modern bathroom. Over the years, Scarabeo has established itself as a leading brand for those seeking fresh ideas for their bathrooms.

Driven by a talented team, Scarabeo takes concepts from inception to reality, utilising the versatility of ceramic manufacturing to develop complete and aesthetically pleasing bathroom solutions that define personal spaces.

Designers

Giovanna Talocci

Interior architect and designer since the 1970s. A natural curiosity for innovation, material research and technology, profound observation of the surrounding reality enabled her to design for prestigious companies, in completely unrelated fields. The same traits are now the pivotal elements in the work of the Talocci Design studio, which specialises in: product design, exhibition design, interior design, event organisation, integrated communication, art direction. Giovanna Talocci has received numerous acknowledgments, among them three ADI Design Index selections, four referrals at the Compasso D'Oro award and four Design Plus prizes. Alongside her design activities, she also works as cultural events curator and consultant for various trade exhibitions, anchor woman and guest of television programmes on design, and lecturer at universities and design schools. She has been a member of ADI (Industrial Design Association) since 1979 and of the ADI National Steering Committee since 2004. In addition, she was a member of the first Italian Council for Design.

Massimiliano Braconi

Designer, painter and sculptor, he diversified his activities to include the creation of artistic works, setting up of temporary architectural works and installations, and interior furnishing and design. In 2002, he opened his studio – situated in the Viterbo area – and quite naturally made his way into the sanitary ceramics production industry. He designs various collections for companies of the sector and collaborates with Scarabeo on a stable basis.

Chiara Valeri

Born in Rome on 21st March 1969, she completed her artistic studies by earning the title of "Master Ceramics Artist" in 1988, after which she began to dedicate herself to artistic ceramics. Subsequently, in 1990, she earned a Diploma in Applied Arts from the "Ulderico Midossi" State Institute of Art in Civita Castellana. In 1990 she graduated from the Rome Fine Arts Academy with a degree in Theatre and Cinema Scenic Design with full marks. She initially embarked on a career in theatre scenic design and subsequently continued her studies in furnishing and design issues. She has created interior design projects for both private customers and retail businesses, while simultaneously collaborating with companies operating in the bathroom furnishing and crockery sectors for outfitting trade fair stands. Since 1997 she has been predominantly focusing on the industrial design sector by collaborating with companies operating in the Civita Castellana industrial scenario.

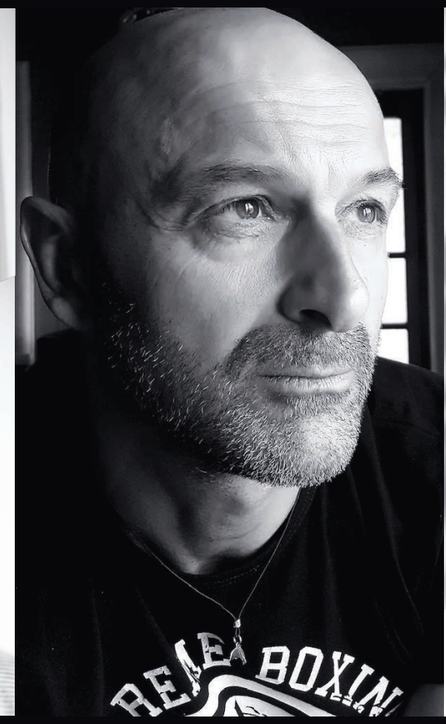

Emo Design

Lukasz Bertoli _ Graduated in Industrial Design at Politecnico di Milano, Lukasz soon began collaborating with Polidesign and TD studio to develop products for many famous italian companies such as Chicco and Gardesa. From 2004 to 2008 he was a senior industrial designer at GP designpartners in Vienna where his responsibilities included designing products for brands like Philips, Siemens, Citroen, Doppelmayr, Vienna Acoustics, Tchibo, NXP, Boesendorfer, HEI, Conlastic.

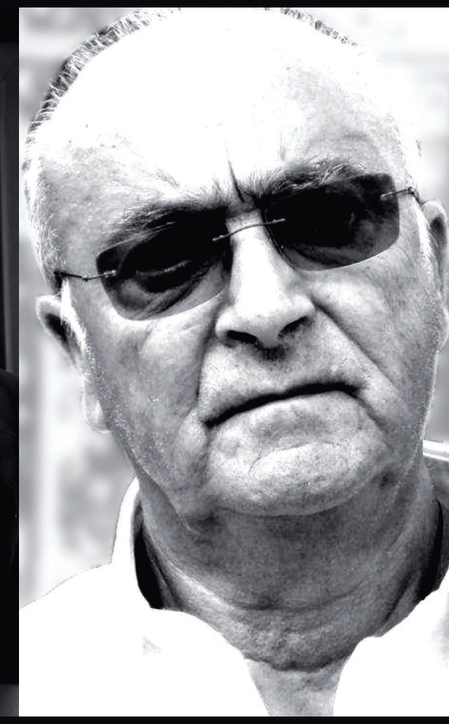

Carlo Ciciliot _ Born in 1982 Carlo graduated in International Relationships at Università degli Studi di Bologna with a Master's in Organization and Economic Development (MOSE) at Profingest Management School. After an important experience at the marketing office of a well established group in the construction sector, he became account manager at Emo design consultancy in 2009.

Davide Vercelli

Designer and Engineer Davide Vercelli founded his own firm in 2005 after being a researcher at the Politecnico di Torino. Ever since fond of project culture, of the ways how technological conception and production, communication and marketing strategies interfere in the making and the presentation of a product, he developed through the years a consistent series of co-operation jobs with design companies of different production fields. A multi-disciplinary and cross-sectoral approach has enabled the studio over the years to support our customers as a global consultant, dealing with product, brand design, brand strategy and exibit. From 2013 the studio follows and designs end the main collective event of Cersaie (Aggregati, Cer-Sea, Cer-Style, Cer-Sail, Milleluci, The sound of design), dedicated to contract and wellness. Numerous are the teaching experiences in co-operation with different institutes and universities such as the Faculty of Design at the Milan Polytechnic University, and I.E.D..He boasts various international awards: thirteen selections for Adi Design Index, two at Compasso d'Oro, two awards at Young and Design, three Design Plus, one first prise at the International Design Awards, TWO Good Design Award AND ONE IF AND GERMAN DESIGN COUNCIL

Giovanni Calisti

Giovanni Calisti dedicates himself to art studies and in 1996 gets the qualification of "Maestro d'Arte della Ceramica" (Master of Ceramic Arts). His big passion flew into very appreciated painting and sculpture. He diversifies his activities from creation of artworks to modelling wash basins for a long-established factory in Civita Castellana named ICA. In 1974 he creates SCARABEO, a factory producing exclusively bathroom accessories that makes a name for itself in the European market in few years. In the middle of the nineties he designs different ranges of basins effortlessly. To this day, these ranges are some of the most appreciated of SCARABEO. Always searching for new stimulus, he charts new courses thanks to his clear strategy based on design.

Gustav

Scarabeo Design

GUSTAV is the new solution for small bathrooms or open-space settings in which there is a dedicated area. The elegance and fresh and joyful design of GUSTAV makes it a versatile solution for adding a touch of character and style, while still being simple and comfortable to use. Manufactured in metal, it has a lightweight and airy structure, with two circular surfaces for positioning the washbasin and everyday items.

Skinny

Studio Adolini

Skinny is the new collection of washbasins designed by Studio Adolini for Scarabeo Ceramiche. It is characterised by an external symmetry where the rigorous and geometric shapes create an elegant presence in the bathroom. With the sinuous and organic movement dictated by the washbasin's interior, the Skinny collection evokes harmony with nature.The shape of the Skinny collection is inspired by the natural rock smoothing process: it is an organic heart where the soft, flowing curves tell the story of a patient and wise evolution.

Moon

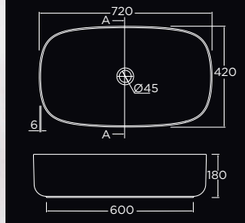

Massimiliano Braconi

"I envisaged a simple, elegant, sinuous and shapeless object inspired by simple urban elements. The element I conceived is physically sophisticated yet suited to our frenetic consumerism. A product with large, embracing forms that reflects a new human minimalism."

Teorema 2.0

Giovanni Calisti

The time has come for TEOREMA 2.0, the large-size washbasin with a slim core. The wide bowl offers an appealing and unusual contrast to the light edges, which are only a few millimetres thick. Its elegant, sober design reflects the merging of beauty and practicality.

Suitable for any type of home environment, its dimensional characteristics make it a highly practical item that can be installed even in homes having a single bathroom.

Glam

Emo Design

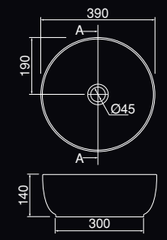

From mini to maxi in only one collection. This is the mood that inspired EMO Design for this new washbasin range. With its gentle, refined lines, the Glam collection proves the know-how of Scarabeo Ceramiche through the creation of ceramic products with extremely thin, yet very resistant edges. In line with contemporary market trends, the clean design makes the collection easy to integrate in multiple settings, for residential, community and contract applications.

TWIST®

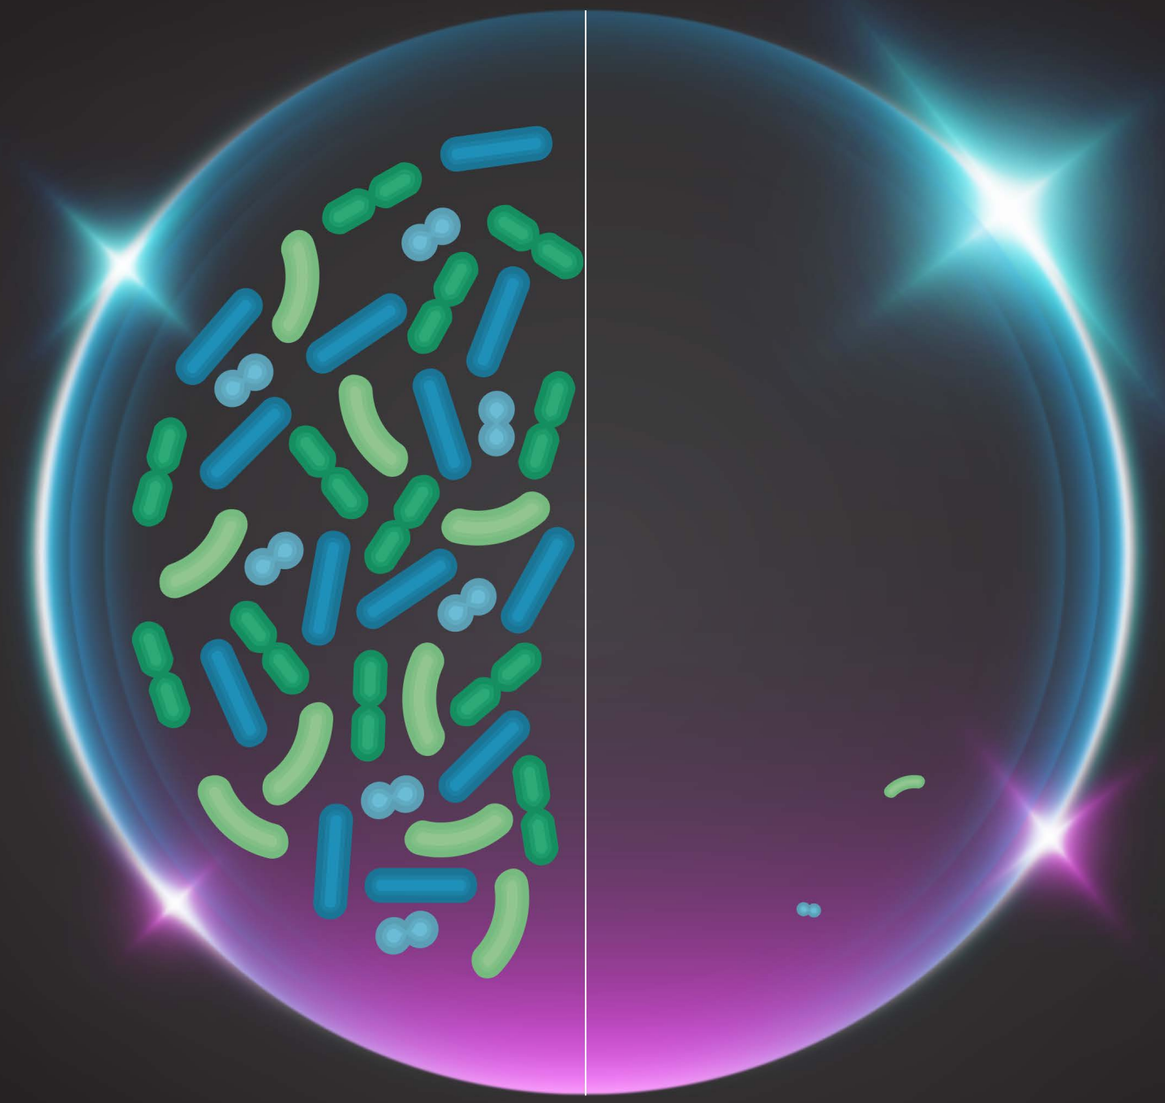

The TWIST system features a containing rim of the bowl that is designed to minimize any water spillage. The new drain can save more water than the existing Clean Flush used by Scarabeo and the new system significantly reduces the noise for a higher level of comfort.

Teorema 2.0

Twist Flush WC

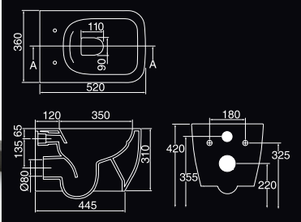

The TEOREMA 2.0 WC line is characterized by rigour, elegance, and simplicity, maintaining the same refined design over time. The collection includes new WCs designed with a slimmer profile and greater projection from the wall, ensuring enhanced user comfort. With a depth of 53cm and a height of 12cm, and with the drain positioned closer to the wall side, the TEOREMA 2.0 PLUS WCs are "**barrier-free**" and certified as suitable for disabled users, meeting both aesthetic and functional needs for modern bathrooms.
